

# BEADY EYE

Shake up your make-up with a dash of colour. Eyes shouldn't be confined to black liner and nude shades. Follow the catwalk's lead instead with colours that pop. The models on the Autumn/Winter 09/10 runways sported bold, '80s-style eyes with Gucci girls in deep purples and Marc Jacobs sweeping peepers with metallic washes. Mix and match liners and shadows in contrasting shades or apply a block colour with these gorgeous buys at Superdrug.
